Ill^{ma}. Dott. Lorenzina Cesano,
Segret. dell'Istituto di Numismatica,
Museo Nazionale delle Terme Diocleziane,
Rome, Italy.

Dear Madam:-

In yesterday's mail, I received from our President, Mr. Edward T. Newell, a letter telling of the delightful visit to your Museum, and of the pleasure he had experienced in talking about numismatic matters while there. At his direction, I am sending under separate cover, copies of the American Journal of Numismatics for 1915, 1916 and 1918. Mr. Newell intimated that there was some suggestion that our Society and the Istituto Italiano di Numismatica exchange publications. We should be most happy to have you take the necessary steps to bring about this relation.

Mr. Newell informs me that he will send the three volumes of the publications of the Istituto di Numismatica which you so kindly gave to him, and I beg that you will accept this repetition of the thanks which I am sure he expressed to you at that time. With assurances of my most distinguished regards, I beg to subscribe myself,

Yours very respectfully,

Secretary.
